

## **New Specialty Services From Top Drawer Components**

*Phoenix, AZ* – Leading dovetail drawer manufacturer Top Drawer Components announces that starting May 1, 2007 the company is expanding the number of services it offers its customers to include a variety of specialty mill services, cut-to-size, subcomponents and CNC services, and UV clear coat finishing services.

“Small cabinet and furniture shops could really use an outsourcing partner for reliable mill services and Top Drawer has the capacity, the technology, and the manpower to provide such a service consistently at an affordable price,” said Brian Emerson, President of TDC. “Our UV finisher applies a clear UV coat that is a 100% scratch-resistant solid coat, contains no formaldehyde, and emits no VOCs (volatile organic compounds). The advantages over hand spraying are easy to see – the finish has no dripping, no running, and no unevenness.”

The new services available include the following:

- Specialty Mill Services
  - Gang-rip Services
  - Material cut and defect services
  - Dimensional Wood Panels
  - S4S for face frame, moldings, and door trims
  - Drawer front blanks
- Cut To Size, Subcomponents, and CNC Services
  - Custom-made Cut To Size parts to fit any order
  - Edge-banding
  - Line boring
- UV Finishing Services
  - 4' x 8' sheets can be finished with a clear UV coat
  - Perfect for flooring and cabinet parts

Top Drawer Components has been producing high quality dovetail drawers for nearly 20 years and its headquarters are in Apache Junction, Arizona, a suburb east of Phoenix. Top Drawer Components – your dovetail drawer partner from top to bottom line. [www.topdrwr.com](http://www.topdrwr.com).
